YEAR-END 2026

A note to our friends in the pool business

Let Us Help You Grow 2027 Even More.

Hi friends! Peak season is winding down and 2027 schedules are filling up. Here's a quick reminder of who we are, what's new, and how ReadiPOD can help you build more pools next year.

More pools in 2027. Less time installing equipment.

Every ReadiPOD arrives assembled, wired, plumbed, programmed and tested. Your crew sets it, connects the pipe stubs and moves on to the next job: time back on your calendar and room for more pools next season. Homeowners love the durable, rust-proof, quiet, compact system. It's a premium upgrade to exposed equipment or a purpose-built room.

- **Faster setup** less time on site
- **Fewer call-backs** tested before it ships
- **Upsell the value** of an enclosed system

A quick reminder: why ReadiPOD

- Compact, easy to service, all-in-one pool equipment system: w/pumps, heater, filter, sanitizer, valves, automation
- Assembled and tested in our Indiana factory
- Powder coat color to match the surroundings
- Faster installs and fewer call-backs

NEW! Drop-Ship Program

Keep your OEM rebate points and incentives. We build your OEM equipment into the unit and deliver it ready to connect. Any brand.
